PART 2

READING

Time: 20 minutes

TASK 1

Read the text below and match each *paragraph A - E* with the topic it covers **1 - 5**:

1. Types of engineers *paragraph* _____
2. Origin and definition of *engineer* *paragraph* _____
3. Women in engineering *paragraph* _____
4. Engineering and science *paragraph* _____
5. Engineers' contribution to society *paragraph* _____

A Man's World?

A When you hear the word *engineer*, do you think of someone who is a) male?, b) boring? or c) dirty? Or all three? Well, time to think again. Engineers are the people who make our everyday lives easier. How many of the world's greatest engineering achievements will you use today? A car, a computer, a telephone? Engineers find solutions to the problems that are important to society. They control and prevent pollution, develop new medicines, create advanced technologies and help explore new worlds. They make the world a cleaner, safer, healthier place by inventing, building and improving all sorts of things from microchips to household appliances, from skyscrapers to spacecraft.

B Interestingly, the word *engineer* does not come from the word *engine*. In fact, it comes from the Latin word *ingeniosus* meaning *skilled*. An engineer is really a clever, practical problem solver. Although the fields of engineering and science are connected, there are also differences.

C While a scientist will ask why a problem occurs or happens, an engineer will want to know how to solve the problem. As one writer once said: scientists build in order to learn, whereas engineers learn in order to build.

D There are all sorts of opportunities in a variety of engineering fields such as aerospace, biomedical, civil, mechanical and computer engineering. Engineers work alone or in teams, and in all sorts of locations such as offices, factories, research labs, outdoors, and even outer space!

E Engineering has often been seen as a male profession. For example, only 9 percent of US engineers are women, while in the UK it is just over 8 percent. However, there is no reason for this: engineers are simply talented people. In fact, research shows that women make the best problem solvers. So now is the time for women to engineer the future. Break the stereotype! Build a career!

TASK 2

Read the text below. For questions **6 – 13** decide if these statements are true (**T**), false (**F**) or the information is not stated (**NS**). **Circle the correct answer on your answer sheet.**

Explore the Great Bear Rainforest

The Great Bear Rainforest is on an island on British Columbia's central coast, in Canada. The rainforest is the largest remaining piece of unbroken rainforest in the world and is full of interesting plants, birds and animals, including the Spirit Bear. It is thought that there are no more than 400 of these bears in the whole of the Great Bear rainforest – and they don't exist anywhere else in the world.

The Island is a fantastic place to go bear and whale watching. It is also a great place to go diving, snorkeling and fishing. Even better, tourism is encouraged by local people and conservationists, as it shows that money can be made from the island without changing it, and this helps to protect the rainforest.

One of the best times to visit the island is mid-September. This is when salmon return in great numbers from the Pacific Ocean to the streams and rivers of British Columbia's west coast. It is also when the bears come out to hunt them!

Knight Inlet is a place well known for its population of grizzly bears. It is on the southern edge of the Great Bear Rainforest. There can be up to 40 bears within a few miles during autumn when the fish are swimming up the river. Guests who stay at Knight Inlet start adventure with a boat ride. They then board a small bus and travel through the northern rainforest to the river. They can go to five different viewing platforms, in three different areas, which are specially built to provide a safe and comfortable place to watch the bears from. It is not uncommon to see 10-15 bears on the river at a time.

Autumn isn't the only season that grizzly bears go to the area. Starting in April, when they've woken from their winter sleep, both black and grizzly bears arrive to feed on new spring growth. Even in mid-summer, when many of the bears have moved into the forests for their food, you can see several bears each day.

Knight Inlet offers wildlife viewing holidays ranging from one to seven nights for our spring, summer and autumn bear viewing. All their holidays begin at Campbell River and include one night in one of the two hotels there. This is essential because the plane journey to Knight Inlet starts very early in the morning.

WRITING

Time: 20 minutes

There were two surveys conducted in 2012 and in 2013 about the popularity of four new music sites on the web. Analyze the table showing the participants' opinion and write a short report on the changes presented in it.

	2012	2013
Music Choice	12%	10%
Pop Parade	22%	15%
Hits Unplugged	53%	54%
Modern Classics	13%	21%

Do not forget to:

- make an introduction
- analyze the changes in participants' opinion
- draw a conclusion

You should write about 90-100 words.

If additional space is required, please use the reverse side of this Paper

TASK 1

For questions 1-10 you will hear a girl, Anna, and a boy, James, about a party. Decide if each sentence is correct or incorrect. You will hear the conversation twice.

James: My brother's getting engaged next month.

Anna: Oh year? That sounds like fun. Are they having a big party?

James: I suppose so.

Anna: You don't sound very excited about it.

James: I'm not.

Anna: Don't you like his girlfriend?

James: Yeah I do actually. She is quite nice. She makes me laugh. It's just that I'm not keen on family parties. They're always really boring. Everybody sits around and hardly speaks to each other. Either that or somebody has a big argument with somebody else and then doesn't speak to them for years.

Anna: It's not like that for us. I quite like seeing aunts and uncles I haven't seen for ages and I always have a really good time with my cousins.

James: There's a big age difference between me and my cousins. They're all about ten years older than me, so we've got nothing to talk about.

Anna: Well, you might enjoy the party anyway. There'll be lots of food, won't there?

James: I expect so.

Anna: What about a present? I hope you haven't forgotten about that.

James: Actually I had. I think my mum's got some ideas. I need to talk to her.

Anna: Well..... if you need any help choosing, I'll come with you.

James: Or I could look on the Internet. Have you ever bought anything that way?

Anna: No, I've always been a bit nervous about it.

James: So have I. I always think whatever I buy won't arrive.

Anna: Well, we could have a look together if you liked.

James: Thanks. That would be great. You can come to the party as well if you want to.

Anna: Thanks.....but I'm not sure about that!

Now you will have a minute to transfer your answers to the answer sheet.

TASK 2

You will hear someone giving advice on how to travel wisely. For questions 11-20 complete the notes about things to remember when travelling.

Presenter: And finally, on today's holiday programme we have the highly talented travel writer Jonathan Ridges to give us a few tips on how to travel wisely. Welcome to the studio, Jonathan.

Jonathan: Thanks, Bill.

Presenter: So, what words of advice do you have for our listeners?

Jonathan: Well, Bill...first of all, before you even book a holiday, make sure that your passport **is valid** as getting a new one can take up to six weeks. Secondly, find out if you need **a visa** to travel to the country you're planning to visit.

Presenter: So, where would you go to get a visa?

Jonathan: You have to go to the **embassy** of the country you want to visit. Also, it's a good idea to go to the bank and buy some **local currency** of the country you are going to.

Presenter: Isn't it easier to exchange money at the airport?

Jonathan: Yes, but at a bank you'll get a much better **exchange rate** than you would at the airport. Er..., but don't take too much cash with you, it can easily be lost or stolen. It's safer to take **travellers'** cheques because they can only be exchanged for cash by the person whose name is on them. Furthermore, if they're stolen the bank will give you new ones.

Presenter: A lot of holidays get off to a bad start when travellers encounter some problems in the airport. What can they do about this?

Jonathan: Well, the first thing to do is to make sure that you keep all **travel documents** in your hand-luggage where they can be easily reached. You'll be amazed how many people actually pack their tickets and passports in their suitcases. Also, if you're taking any **medication** carry the doctor's prescription with you, otherwise customs officers might think that you're smuggling drugs.

Presenter: Any final suggestions?

Jonathan: Yes, one more thing. It might sound unimportant but when flying **long distances** make sure that you wear **comfortable shoes**. I'll never forget the first time I flew to the States, I took my shoes off ... only to find that I couldn't get them back on when I arrived ... very embarrassing I must say.

Presenter: Jonathan, thanks for sharing your advice with our viewers today. Now, on to the subject.....
