Preparation time: 5 min.

Time: 5 min.

The administration of your school is organizing a workshop on distance learning and ways to heighten its efficiency. Participants are expected to share ideas. Your partner and you need to come up with ideas for report and justify your choice.

Discuss the following:

- 1) What are pros and cons of distance learning?
- 2) What problems can arise in doing one?
- 3) Which ways work for you and why?

Make decisions about:

- a) the types of activities and task you may suggest which are likely to make study more efficient,
- b) what one can do to compensate for the lack of immediate communication,
- c) ways to help those who lost interest and enthusiasm.

Remember:

- to be polite,
- to keep the conversation going,
- to come up with the decision.
