

Устный тур

Speaking

In our everyday life we are surrounded not only by people, but also by objects. We often develop an attachment to them, and objects affect the way we behave, think, work, spend our free time, and in general lead our lives.

Make up a story about your favourite possession. Use one of the pictures below or choose something different.

- Give your story a title.
- Make a short introduction (mention the role of possessions in our life).
- Name your favourite possession and tell its story (when and how you got it).
- Describe the object.
- Explain why it is special to you (mention 2 reasons).
- Recall and describe an emotional episode with the object.
- In conclusion say what your life would be like without your favourite object.

In your story do not forget to follow the plan, use vivid language and express your ideas in a clear and logical way.

You have to think for 2 minutes. You may make some notes, but you can't read them. Then you are to talk continuously.
